Scope
This procedure applies to any IU Humans Resources, workforce who are involved in the management of the IU’s Health Plans. This procedure is in accordance with the Privacy Rule of the Health Insurance Portability and Accountability Act (HIPAA).

Reason for Procedure
The Health Information Portability and Accountability Act (HIPAA) Privacy regulations require that a health plan must permit individuals to request and must accommodate reasonable requests by individuals to receive communications of protected health information from the health plan by alternative means or at alternative locations, if the individual clearly states that the disclosure of all or part of that information could endanger the individual.

This procedure defines the process for complying with an individual’s reasonable request(s) for alternative communications.
